**21. Give three observations / suggestions to improve the overall teaching – learning experience in the institution. (Some Notable Suggestions)**

- 1) As some of the online classes are not understood, so it would have been better to take classes offline
- 2) In 6th Semester B.A. General Programme, there are limited classes per week for every subject. At least 5 classes are required per week. I think we are neglected for being general students.
- 3) Teachers should describe more about topics also with more and more examples
- 4) Short test or assessment in every week should be taken by the mentors.
- 5) Practical works must be given by the mentors to increase the application ability of the knowledge captured by the students.
- 6) Teachers should teach us with some extra real life example of the particular topics
- 7) Create questions on chapter wise, unit wise or whole syllabus in an online platform
- 8) A good data connection for online classes
- 9) Arrange some extra classes
- 10) Give the notes of every online class if possible
- 11) Sharing a proper colorful slide. It also helps us to understand concepts easily
- 12) Communicate with all students separately to know their problems and issues
- 13) Consult with the students and identify their weaknesses

The institution has conducted an online survey among the students to collect feedback from them. It has designed a proforma to collect and analyze students' views which would be used as feedback from students.
